SUN	MON	TUE	WED	THU	FRI	SAT
30 Geeta Jayanti Dashami 7:59 Ekadashi 29:31 UttaraBhadra 11:40		Did you know? In the Karthika masa or month it is a tradition to light diyas or oil lamps and place them in front of the main entrance of the house in the evening. Both, Sri Shiva and Sri Vishnu are worshipped with great devotion during the month proving their oneness as mentioned in Padma Purana Shivaaya Vishnu Roopaaya, Shiva Roopaaya Vishanave Shivasya Hrudayam Vishnur, Vishnuscha Hrudayam Shivaha On Mondays (Somavara) of this month, special Rudrabhishekam followed by JyotirlingArchana are performed to Sri Shiva also revered as "Someshwara". On Saturdays (Shanivara), Sri Venkateshwara Swamy along with Sridevi and Bhudevi are worshiped with DeepAlankara Seva Please Contact: e-mail: officemanagers@htccwa.org, Phone: 425 483 7115				1 Chaturmasa Ends Deepalankara Seva Utthana Ekadashi Sri Venkateshwara Abhishekam Ekadashi 19:02 PurvaBhadra 27:33

Abhishekam (Individual sponsored), Special pujas (Satyanarayana Vratam, Lakshmi Puja), Individual Pujas (Anniversary Puja etc), Kalyana Utsavam, Seemantham, Upanayanam

ABOUT THE CALENDAR

Hindu Temple and Cultural Center is pleased to release the 2024 calendar containing information needed for the day to day usage by the devotees in the greater Seattle Area.

Thithi: A month in the lunar calendar is the time the moon takes for each revolution around the earth. The lunar month is divided into two groups, called Pakshas, one when the moon is waning (dark fortnight or Krishna Paksha) & when the moon is waxing (bright fortnight or Shukla Paksha). Each paksha is divided into 15 thithis. The first 14 thithis are Sanskrit numberings from 1 to 14 (Prathama, Dwithiya etc). The 15th thithi of Shukla Paksha is Purnima (full moon) & the 15th of the Krishna Paksha is Amavasya (moon is not visible as it is closes to the sun). So as lunar month consists of 30 thithis & each thithi then corresponds to the time taken by the moon to move 12 degrees, with respect to the sun.

Nakshatra: There are 27 Nakshatra (constellations) in the Zodiac. A Nakshatra (shown in italics in calendar) is the zodiac constellations in which the moon is found on the particular day.

Timings listed in the calendar: The times listed after a Thithi & Nakshatra are the times at which the Thithi or Nakshatra ends. The panchanga uses the vedic definition of day , i.e a day starts with sunrise and ends with subsequent sunrise. Thus a thithi of 29:00 indicates that the thithi ends before the subsequent sunrise. According to the Julian (western) calendar, this means that thithi ends at 5:00 AM (29:00 – 24:00) on the next day.

Festivals listed differently than in India: Hindu festivals are generally based on the Tithi and/or Nakshatra as per the lunar calendar (& some as per the solar calendar). For example Rama Navami is Chaitra Shukla Navami Madhyahna. Each thithi begins & ends at the same instant all over the world. After correcting for the time zones , the tithi will begin/end on different local times in different parts of the world. Since India has little variation in terms of sunrise/sunset, a panchanga computed for one area is generally usable as-is throughout the country. This is not true when festival is computed for different location on the earth say Seattle.

HTCC TEAM OF PRIESTS

DR. VASUDEVA SHARMA

He is well versed in Smartha Sampradaya and conducts all types of Purva and Apari rituals. He is a disciple of Sri Kanchi Kamakoti Jayendra Saraswathi Swamigal. He holds a Doctorate in Astrology and he is fluent in Telugu, Tamil, Hindi and English.
